panne image by Charly from Fotolia.com. The transmission fluid in your 2004 Honda Accord should be changed about every 50,000 miles for optimum transmission performance. Allowing the old fluid to go far beyond this 50,000 mile-mark could create problems within the transmission system, as old transmission fluid becomes thick, sticky and corrosive. The worse the fluid gets, the more the various components within your transmission are bound to abrasively rub against one another.
