Welcome to Corporate Life. The NEW Employee Manual is not your Dad's or Mom's employee manual. It's the new playbook for corporate survival, fitting today's realities and the challenges facing employees who join or work in large, seemingly successful companies. Those companies already issued very specific and detailed employee manuals covering everything under the sun except how to compete well in our brave new world. The NEW Employee Manual will help you navigate the Corporate (with a capital C) labyrinth. Where Corporate's manual shapes you into a dutiful cog for the good of the machine, ours helps you enhance your career for the good of, well, you ... and your company. The NEW Employee Manual should make you feel skeptical: skeptical of empty slogans, obsolete rituals, obsessive pursuits, and bigwigs' playbooks that no longer work. That alone should be worth this book's price. Skepticism, you see, is a good thing, because it is only the skeptic, only the free-thinker, only the maverick, who asks new questions and finds useful answers. So, are you a maverick or a cog?

For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years.

Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation)Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underwayEthanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive EngineersGM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade agoYou can save \$2,000 by cutting freight fees and "administrative" chargesDiesel annual urea fill-up scams cancost you \$300, including an \$80 "handling" charge for \$25 worth of ureaLemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki
