Preparing to give a State of the Union address when a terrorist group releases a deadly virus into the Capitol building, President James Allaire is forced to enlist the services of a virologist who has been wrongly imprisoned for suspected terrorist intentions.

The New York Times bestselling author and master of suspense delivers another

Read Book A Heartbeat Away Michael Palmer

novel at the crossroads of politics and medicine in this shocker of a thriller On the night of the State of the Union address, President James Allaire expects to give the speech of his career. But no one anticipates the terrifying turn of events that forces him to quarantine everyone in the Capitol building. A terrorist group calling itself "Genesis" has unleashed WRX3883, a deadly, highly contagious virus, into the building. No one fully knows the deadly effect of the germ except for the team responsible for its development—a team headed by Allaire, himself. The only one who might be able to help is virologist Griffin Rhodes, currently in solitary confinement in a maximum security federal prison for alleged terrorist acts, including the attempted theft of WRX3883 from the lab where he worked. Rhodes has no idea why he has been arrested, but when Allaire

Read Book A Heartbeat Away Michael Palmer

offers to free him in exchange for his help combating the virus, he reluctantly agrees to do what he can to support the government that has imprisoned him without apparent cause. Meanwhile, every single person in line for presidential succession is trapped inside the Capitol—every person except one: the Director of Homeland Security, who is safely at home in Minnesota, having been selected as the "Designated Survivor" for this event. With enemies both named and unnamed closing in, and the security of the nation at stake, Griff must unravel the mysteries of WRX3883 without violating his pledge as a scientist to use no animal testing in his experiments...and time is running out. Tense, thrilling, and entirely plausible, *A Heartbeat Away* will make you reflect, wonder, and be truly afraid.

The New York Times bestselling author

and master of medical suspense delivers another shocker of a thriller filled with insider details and a terrifying psychopath. Four murders. Three accidents. Two suicides. One left... **THE LAST SURGEON** Michael Palmer's latest novel pits a flawed doctor against a ruthless psychopath, who has made murder his art form. Dr. Nick Garrity, a vet suffering from PTSD—post traumatic stress disorder—spends his days and nights dispensing medical treatment from a mobile clinic to the homeless and disenfranchised in D.C. and Baltimore. In addition, he is constantly on the lookout for his war buddy Umberto Vasquez, who was plucked from the streets by the military four years ago for a secret mission and has not been seen since. Psych nurse Gillian Coates wants to find her sister's killer. She does not believe that Belle Coates, an ICU nurse, took her own life,

Read Book A Heartbeat Away Michael Palmer

even though every bit of evidence indicates that she did—every bit save one. Belle has left Gillian a subtle clue that connects her with Nick Garrity. Together, Nick and Gillian determine that one-by-one, each of those in the operating room for a fatally botched case is dying. Their discoveries pit them against genius Franz Koller--the highly-paid master of the "non-kill"—the art of murder that does not look like murder. As Doctor and nurse move closer to finding the terrifying secret behind these killings, Koller has been given a new directive: his mission will not be complete until Gillian Coates and Garrity, the last surgeon, are dead.

Dr. Eric Najarian. He's young, talented, and ambitious. He has all the qualities they're looking for at White Memorial Hospital. He doesn't know he's being watched. Judged. An elite clique of

Read Book A Heartbeat Away Michael Palmer

medical professionals thinks he has what it takes to join their secret club. All the young doctor has to do is agree to play by their rules. But Eric has already seen too much. A missing corpse. An unspeakable mutilation. A brutal abduction. It's only the beginning of a plot of terrifying evil. A sinister plan the group will stop at nothing to hide. And if Eric refuses to become their colleague--he will be their next victim.

Michael Palmer, the New York Times bestselling author of *A Heartbeat Away* and *The Last Surgeon* brings us a shocking new thriller at the crossroads of politics and medicine. What if a well respected doctor inexplicably goes on a murderous rampage? When Dr. John Meacham goes on a shooting spree the office, his business partner, staff, and two patients are killed in the bloodbath. Then Meacham turns the gun on himself. The

Read Book A Heartbeat Away Michael Palmer

blame falls on Dr. Lou Welcome. Welcome worked with Meacham years before as a counselor after John's medical license had been revoked for drug addiction. Lou knew that John was an excellent doctor and deserved to be practicing medicine and fought hard for his license to be restored. After hearing the news of the violent outburst, Lou is in shock like everyone else, but mostly he's incredulous. And when he begins to look into it further, the terrifying evidence he finds takes him down a path to an unspeakable conspiracy that seems to lead directly to the White House and those in the highest positions of power.

A massive cover-up gone awry A prominent physician accused of murder Uncovering the truth could put the entire country at risk Dr. Gary McHugh, known around Washington, D.C. as the "society

Read Book A Heartbeat Away Michael Palmer

doc," calls his longtime friend Dr. Lou Welcome in a state of panic, certain he is about to be arrested for murder. McHugh was found in an alcoholic blackout in his wrecked car after visiting a patient of his, the powerful Chairman of the House Armed Services Committee, Elias Colston. Soon after McHugh leaves, Colston's wife returns home to find her husband shot to death in their garage. McHugh has no recollection of committing the crime and no one who would possibly believe in his innocence, other than Lou. As more facts come to light, even Lou has serious doubts. But something about McHugh's story nags at him and as he looks into matters, pieces of the puzzle don't point to his friend's guilt so definitively. With the help of Sarah Cooper, an ambitious attorney with her own reasons for hating doctors, Lou finds himself at the center of a deadly, high-level conspiracy where the difference between

Read Book A Heartbeat Away Michael Palmer

right and wrong is a matter of interpretation, and the words "whatever it takes" have a chilling meaning. If Lou and Sarah don't uncover the real reasons Colston is dead, they may not survive themselves, and the entire country could be at risk for attacks that could destroy the very fabric of national security. Once again, bestselling author Michael Palmer proves that he is the king of suspense in this page-turning thriller, *Political Suicide*, set at the crossroads of politics, the military, and medical science.

Possessing a brilliant mind for medicine in spite of her inability to comprehend the dynamics of traditional medicine, Asperger's patient and doctor Thea Sperelakis is baffled when her siblings refuse care to their hit-and-run victim father.

Reunited with his former Annapolis roommate, Andrew Stoddard--now president of the United States--when he is asked to become his personal physician, Gabe Singleton discovers that Andrew is going insane and that the condition may not be the result of natur

Someone is playing mind games with a cyber genius in this “ fiendishly inventive psychological thriller ” by the author of Stolen (Lee Child). Charlie Giles is at the top of his game. An electronics superstar, he ’ s sold his startup to a giant Boston firm, where he ’ s now senior director. He ’ s treated like a VIP everywhere he goes . . . until everything in Charlie ’ s neatly ordered world starts to go terrifyingly wrong. Charlie ’ s mother is hospitalized, his prestigious job is in jeopardy, his inventions are wrenched away from him, and one by one, his

Read Book A Heartbeat Away Michael Palmer

former colleagues are being murdered. Every shred of evidence points to Charlie as a cold-blooded killer. And soon he is unable to tell whether he 's succumbed to the pressures of work and become the architect of his own destruction, or whether he 's the victim of a relentless, diabolical attack. Now he must save his own life—all the while realizing that nothing can be trusted, least of all his own fractured mind. “ Hits all the right notes. Terrific stuff. ” —John T. Lescroart “ A high-speed thrill ride, filled with shocks and mind-bending twists. ” —Tess Gerritsen “ Not just a great thriller debut, but a great thriller, period. ” —Lee Child

Delivering a speech for his boss at a national conference in Atlanta, Dr. Lou Welcome takes an exclusive tour of the Centers for Disease Control and learns about the development of biological
