RECENTLY, I TOOK out the old Morco water heater to replace it with a Carver Cascade. Cascades fit through the wall into the caravan. ... but in that position the heater flange fouled the rubbing strake along the caravan's bottom. Placing the heater too high fouled the trim covering a wall panel join. To achieve just the right height, I made a ...

Henry water heater is an exact replacement for the popular Carver Cascade 2 GE, gas and 240v, has a powerful 830 watt heater element. The Henry comes complete wall switch and exterior flue cowl. PLEASE NOTE: THESE WATER HEATERS ARE NO LONGER AVAILABLE. FOR REPLACEMENT SEE CCG 2139 MALAGA E WATER HEATER.

## *Carver - UKs Central Caravan Accessories & Spares Supplier*

The heater is installed through the wall of the caravan with only the flue cowl visible on the outside. All the working parts of the gas system are in a single module which can be easily removed by a competent gas fitter from outside the caravan. The gas heating is operated by a wall mounted controller inside the caravan.

The Carver Cascade in common with most other caravan storage water heaters utilise a tank which obviously fills from the bottom, but the exit port is at high level within the tank, so before water comes out of the heater the tank does have to fill. So the absence of water at the hot taps suggests the tank has not completely filled.

## *Carver Cascade Water Heater - Practical Caravan Forums*

Water Supply Notes. The Cascade Water Heater is suitable for installation into any existing caravan water system, whether manually or electrically pumped, with only the following precautions. 1. It must not be directly connected to mains water supply. 2. It must have a pumped cold water input pressure no exceeding 20 p.s.i (1.4 bar).
