new SLL Lighting Guide. It sets out a logical approach for the professional designer to consider the consultation, design, specification, commissioning and handover of a lighting installation incorporating controls. Luminaire and controls technology is moving quickly and some forms of emerging controls technology have yet to prove themselves and become commonplace in the built environment.

Curved glass screens were replaced by flat matt finish versions which were much less susceptible to specular reflections and, as DSE became mainstream, appropriate guidance was added to Lighting Guide 7 - Offices rather than continue with a separate guide. In addition, tablets and touch screens are now commonplace and can be used in any orientation so the user has to play much more of a part ...
