Clinical Anatomy of the Eye has proved to be a very popular textbook for ophthalmologists and optometrists in training all over the world. The objective of the book is to provide the reader with the basic knowledge of anatomy necessary to practice ophthalmology. It is recognised that this medical speciality requires a detailed knowledge of the eyeball and the surrounding structures. The specialist's knowledge should include not only gross anatomic features and their development, but also the microscopic anatomy of the eyeball and the ocular appendages. The nerve and blood supply to the orbit, the autonomic innervation of the orbital structures, the visual pathway, and associated visual reflexes should receive great emphasis. The practical application of anatomic facts to ophthalmology has been emphasised throughout this book in the form of Clinical Notes in each chapter. Clinical problems requiring anatomic knowledge for their solution are presented at the end of each chapter. Illustrations are kept simple and overview drawings of the distribution of the cranial and autonomic nerves have been included.

Included CD-ROM contains clinical notes, information on congenital anomalies, radiographic anatomy, and clinical problem-solving exercises, all of which correlate directly with the text.

The revised, updated Fifth Edition of this pocket book is a handy reference to consult when making bedside interpretations of clinical data. Remarkably complete for its small size, the book lists nearly 200 symptoms, physical signs, laboratory test results, and radiologic findings and their differential diagnoses. This edition has a new, more user-friendly two-color design, tabs indicating sections, and shortened lists of the most common diagnoses. An expanded section on HIV infection covers new manifestations, including immune reconstitution syndrome. The infectious disease chapter has been revised to reflect its increasing importance in clinical medicine, the emergence of multi-drug resistant bacteria, and the threat of bioterrorism.
