Engineering drawing and computer graphics By Prof. Rajaram Lakkaraju | IIT Kharagpur All phases of manufacturing a product involve expressing basic ideas into graphical format widely known as engineering drawing and design.

Engineering drawing and computer graphics - Course
An engineering drawing is a type of technical drawing that is used to convey information about an object. A common use is to specify the geometry necessary for the construction of a component and is called a detail drawing. Usually, a number of drawings are necessary to completely specify even a simple component. The drawings are linked together by a master drawing or assembly drawing which gives the drawing
