Why is it important to be able distinguish primary and secondary sources? Whether conducting research in the social sciences, humanities (especially history), arts, or natural sciences, the ability to distinguish between primary and secondary sources is essential.Your instructor may ask you to find one of these types of sources for a class project or paper.

[Disturbing asbestos materials during construction is a serious hazard that all contractors may encounter. Because of the insidious nature of the material as a health hazard, EPA regulations require that even when a structure is to be completely demolished, asbestos \(and all other hazardous materials\) must be removed by a qualified contractor prior to general demolition. A construction contractor contemplating abatement work needs to ascertain regulatory applicability under one of the following: OSHA-approved state program, Federal OSHA regulations \(applicable to the private sector and certain federal employees\) or OSHA-approved. Construction Worksite Compliance Guide to Asbestos provides the contractors, building owners and inspectors with the current best management practices for asbestos removal and disposal methods. Packed with checklist, tables and "quick lookup" materials, this manual provides a step by step approach for identifying asbestos, complying with OSHA and EPA regulations as well as the safe disposal of asbestos. Ascertain the presence of asbestos through testing Prepare the abatement plan Submit the plan to the state, EPA or local municipality having jurisdiction Proper Waste Disposal techniques Scope of work](#)

[Make economics resonate to high school students. This practical handbook will help economics and social studies teachers foster critical thinking by introducing students to the real-life dimensions of the major controversies in contemporary economics. Filled with useful teaching tips and user-friendly information on finding engaging materials and activities for the classroom, the book also includes detailed coverage of the Voluntary National Content Standards for economics. "Introducing Economics" is a one-stop resource for high school teachers who want to make economics relevant to their students' lives. It includes more than 50 sections with lists of suggested "Activities and Resources," many with Internet links. It features boxed "Hints for Clear Teaching" tips for presenting particularly difficult topics. It provides an annotated resource guide to more than 30 organizations involved in economics education, with associated Internet links. It follows the flow of topics in a typical economics course. It addresses real-life topics that are ignored or glossed-over in traditional textbooks - economics and the environment, the distribution of income and wealth, discrimination, labor unions, globalization, the power of corporations, and more. It offers critical guidance for meeting all 20 Voluntary National Content Standards in economics, and also provides an overview of the political and intellectual history and contemporary state of economics education.](#)

[This companion volume to Conference Interpreting – A Complete Course provides additional recommendations and theoretical and practical discussion for instructors, course designers and administrators. Chapters mirroring the Complete Course offer supplementary exercises, tips on materials selection, classroom practice, feedback and class morale, realistic case studies from professional practice, and a detailed rationale for each stage supported by critical reviews of the literature. Dedicated chapters address the role of theory and research in interpreter training, with outline syllabi for further qualification in interpreting studies at MA or PhD level; the current state of testing and professional certification, with proposals for an overhaul; the institutional and administrative challenges of running a high-quality training course; and designs and opportunities for further and teacher training, closing with a brief speculative look at future prospects for the profession.](#)

[The Life Manual is a non-fiction, information book written primarily for young adults. It aims at providing teenagers and adults in their early 20s with essential life information.
