Making Sense of World History is a comprehensive and accessible textbook that helps students understand the key themes of world history within a chronological framework stretching from ancient times to the present day. To lend coherence to its narrative, the book employs a set of organizing devices that connect times, places, and/or themes. This narrative is supported by: Flowcharts that show how phenomena within diverse broad themes interact in generating key processes and events in world history. A discussion of the common challenges faced by different types of agent, including rulers, merchants, farmers, and parents, and a comparison of how these challenges were addressed in different times and places. An exhaustive and balanced treatment of themes such as culture, politics, and economy, with an emphasis on interaction. Explicit attention to skill acquisition in organizing information, cultural sensitivity, comparison, visual literacy, integration, interrogating primary sources, and critical thinking. A focus on historical "episodes" that are carefully related to each other. Through the use of such devices, the book shows the cumulative effect of thematic interactions through time, communicates the many ways in which societies have influenced each other through history, and allows us to compare and contrast how they have reacted to similar challenges. They also allow the reader to transcend historical controversies and can be used to stimulate class discussions and guide student assignments. With a unified authorial voice and offering a narrative from the ancient to the present, this is the go-to textbook for World History courses and students. The colorful book features two 10-inch dolls and eight pages of clothes to cut out and dress the Michelle dolls include more than twenty outfits illustrated by David Wolfe. The paper doll book is fun for collectors of all ages and also offers an historic view of how Michelle Obama became America's favorite fashion icon during the presidential campaign and inauguration. Every outfit in the book was actually worn by Mrs. Obama. Especially noteworthy is the inclusion of the news making J.Crew skirt and sweater worn on "The Tonight Show with Jay Leno" and the black and white print dress worn on "The View." Of course, the highly publicized fashions worn during the Inauguration ceremonies are given pride of place in the book's center spread. There is the Isabel Toledo lemongrass Swiss lace coat ensemble, the Narcisco Rodriguez outfit worn at the concert and of course, the ivory floral/crystal ball gown destined for the Smithsonian. The beautiful bridal gown worn for the Obama's 1992 wedding is also included in the beautifully illustrated book.

The purpose of this book is to provide engineers and researchers in both the wind power industry and energy research community with comprehensive, up-to-date, and advanced design techniques and practical approaches. The topics addressed in this book involve the major concerns in the wind power
