~~The Mystery And Science Behind The Law Of Attraction~~

The Law of Attraction can be defined as: I attract to my life whatever I give my attention, energy, and focus to, whether positive or negative. Now, with this book, readers can learn how to use the Law of Attraction deliberately and integrate it into their daily life.

~~Law of Attraction: The Science of Attracting More of What ...~~

The Science of the Law of Attraction concludes that the energy emitted from our thoughts literally has the ability, when focused, to affect energy, which is also matter. Understanding this basic science provides you the backdrop for understanding how you do what you do when you create your desires and manifest you reality.

~~What is the Law of Attraction? — Law of Attraction Solutions~~

There is a science behind the Law of Attraction. It isn't just some strange law with no factual basis. The Law of Attraction isn't a missing secret, pseudo-science or smoke-and-mirror trick designed to take advantage of people. Science proves that the Law of Attraction is real. You can find the basis for the science behind the Law of Attraction in quantum physics, neuroscience and biology.

~~Understanding the Science behind the Law of Attraction ...~~

Law of Attraction experts often stress the importance of the creative visualization process through which you vividly imagine the life you're trying to manifest. Scientifically, the Law of Attraction works at least partly because of this very process, and neurologists working at the Wellcome Trust Centre for Neuroimaging in London are finding proof.

~~How Does The Law Of Attraction Work Scientifically?~~

The Law Of Attraction: Platonic Roots As early as circa 391 BC, the Greek philosopher Plato had already stated that "likes tend toward likes" (or like attracts like) as in earth to earth, water to water, and so on. We Are All Connected

~~Scientific Proof of the Law of Attraction~~

A third line of evidence that supports the "Law of Attraction relates to "Ask and It Is Given" and "The Power of Intention." The brain regions involved in "intention" are very connected to those regions involved in action. As a result, firing up those brain regions involved in intention will start to fire up your action centers.

~~Is There Scientific Evidence for the "Law of Attraction ...~~

The law of attraction(LOA) is the belief that the universe creates and provides for you that which your thoughts are focused on. It is believed by many to be a universal law by which "Like always..."

~~3 Ways Science Explains How the Law of Attraction Works ...~~

The law of attraction is a philosophy suggesting that positive thoughts bring positive results into a person's life, while negative thoughts bring negative outcomes. It is based on the belief that thoughts are a form of energy and that positive energy attracts success in all areas of life, including health, finances, and relationships.

~~What Is the Law of Attraction? - Verywell Mind~~

The law of attraction is a metaphysical force akin to the force of gravity. Just as a gravitational pull exists between the sun and planets to hold them in continuous orbit, so does the law of attraction exist between a person's beliefs and behaviors.

~~What is the Law of Attraction? A Complete Guide | Tony Robbins~~

There is no empirical scientific evidence supporting the law of attraction, and it is widely considered a pseudoscience. Advocates generally combine cognitive reframing techniques with affirmations and creative visualization to replace limiting or self-destructive ("negative") thoughts with more empowered, adaptive ("positive") thoughts.

~~Law of attraction (New Thought) - Wikipedia~~
