Grand strategist and founder of modern Singapore offers key insights and controversial opinions on globalization, geopolitics, economic growth, and democracy. When Lee Kuan Yew speaks, presidents, prime ministers, diplomats, and CEOs listen. Lee, the founding father of modern Singapore and its prime minister from 1959 to 1990, has honed his wisdom during more than fifty years on the world stage. Almost single-handedly responsible for transforming Singapore into a Western-style economic success, he offers a unique perspective on the geopolitics of East and West. American presidents from Richard Nixon to Barack Obama have welcomed him to the White House; British prime ministers from Margaret Thatcher to Tony Blair have recognized his wisdom; and business leaders from Rupert Murdoch to Rex Tillerson, CEO of Exxon Mobil, have praised his accomplishments. This book gathers key insights from interviews, speeches, and Lee's voluminous published writings and presents them in an engaging question and answer format. Lee offers his assessment of China's future, asserting, among other things, that "China will want to share this century as co-equals with the U.S." He affirms the United States' position as the world's sole superpower but expresses dismay at the vagaries of its political system. He offers strategic advice for dealing with China and goes on to discuss India's future, Islamic terrorism, economic growth, geopolitics and globalization, and democracy. Lee does not pull his punches, offering his unvarnished opinions on multiculturalism, the welfare state, education, and the free market. This little book belongs on the reading list of every world leader.

The Singapore Story is the first volume of the memoirs of Lee Kuan Yew, the man who planted the island state of Singapore firmly on the map of the world. It was first published in 1999. In intimate detail, Lee recounts the battles against colonialists, communists and communalists that led to Singapore's independence. With consummate political skill, he countered adversaries, sometimes enlisting their help, at others opposing them, in the single-minded pursuit of Singapore's interests. We read how he led striking unionists against the colonial government, how over tea and golf he fostered ties with key players in Britain and Malaya, of secret midnight meetings in badly lit rooms, drinking warm Anchor beer with a communist underground leader, of his purposeful forging of an alliance with communists to gain the support of the Chinese-educated masses. Readers will find inspiration in his tenacity as he fought for the people's hearts and minds against first the communists and later the communalists – in parliament, on the streets and through the media. Drawing on unpublished Cabinet papers, archives in Singapore, Britain, Australia, New Zealand and the United States, as well as personal correspondence, he gives us a vivid picture of how others viewed him: determined ("Lee will bluff, bully and blackmail up to the eleventh hour"), motivated ("Choo knew I sweated blood to master Hokkien"), ambitious ("He would think himself as legitimate as I was to be the leader of Malaya"), dangerous ("Crush Lee! Put him inside"). It is a sometimes controversial yet strangely consistent portrait of this Asian statesman. These experiences and his dealings with the political leaders were to shape his views and policies, which have had a major impact on Singapore and the region.

Lee Kuan Yew through the Eyes of Chinese Scholars is a compilation of essays by highly-respected Chinese scholars in which they evaluate the life, work and philosophy of Lee Kuan Yew, founding Prime Minister of Singapore. Presenting a range of views from a uniquely Chinese/Asian perspective, this book provides valuable insights for those who wish to gain a fuller and deeper understanding of Lee Kuan Yew — the man, as well as Singapore — his nation. Marking the momentous event of his death as well as the 50th anniversary of Singapore's independence in 2015, this compilation reflects both the high regard in which Lee Kuan Yew is held across the Chinese-speaking world as well as the reservations of a few. The contributors are all ethnic Chinese from different academic disciplines ranging from a Nobel laureate in physics, Chen-Ning Yang, to historians, economists and political scientists. They include Singaporeans such as Wang Gungwu and Chew Cheng Hai, as well as scholars from China, the US and Hong Kong such as Yongnian Zheng, Ying-Shih Yu, Lawrence Lau and Hang-Chi Lam among others. Originally published in Chinese, this English translation makes the material accessible to a wider English-reading audience.

Lee Kuan Yew, Singapore's first Prime Minister, is a figure whose international stature far exceeds that of the tiny island over which he ruled for thirty years. Lee is the principal architect of Singapore's political stability and its economic success and is often credited with being the leader of economic development throughout Asia. Yet the continuing interest in the man several years after his retirement from the prime ministership derives mainly from his contributions on the greater world stage. Lee was a leading figure in the recent revival Confucianism throughout the Chinese world and was the principle architect of the 'Asian values' campaign of the 1990s. In this role he has been at the forefront of both practical and theoretical efforts to reconcile undemocratic, illiberal elitism with the requirements of a prosperous capitalist economy operating in the global economy. Lee presents an ostensibly 'Asian' argument, but his essential message is global.
