The book is for the 2nd year Diploma. Contents - 1. Principal of Object Oriented Programming 2. Classes and Objects 3. Constructor and Destructor 4. Inheritance 5. Pointers 6. Polymorphism * Make sure you read book using tablet or computer screen. ** Last chapter - We are going to add it soon and also question papers related to I scheme, please update book after 1 month. *** Email us for all other books for free - icebreakerspublications@gmail.com Please include your Name & WhatsApp number to send updates & other free books links.

While writing the book, we have continuously kept in mind the examination requirements of the students preparing for U.P.S.C.(Engg. Services) and A.M.I.E.(I) examinations. In order to make this volume more useful for them, complete solutions of their examination papers up to 1975 have also been included. Every care has been taken to make this treatise as self-explanatory as possible. The subject matter has been amply illustrated by incorporating a good number of solved, unsolved and well graded examples of almost every variety.

G' Scheme Syllabus of MSBTE. The book is for the 1st year 2nd Semester Diploma (Computer Engineering). Chapters: Unit - I Program Logic Development Unit - II Basics of C programming Unit - III Control Structures Unit - IV Array and Structure Unit - V Functions Unit - VI Pointers

About the Book: Of late, academicians of technical education have felt the importance of "Management" and "Entrepreneurship". Engineers need to manage their departments/sections/subordinates, and Entrepreneurship helps the large pool of technical manpower in developing small-scale industries in high tech areas thereby contributing to the economy of the country. This book covers both 'Management' and 'Entrepreneurship'. The first chapters of this book deal with Management, Planning, Organizing and Staffing, Directing and Controlling. The last four chapters deal with Entrepreneurship, Small-Scale Industries, Institutional support and Project formulation. Adequate number of simple examples with which the students are familiar are included in each chapter. In addition, each chapter contains student learning activities to give the readers a chance to enhance the learning process. Though the book is written keeping in mind the syllabus of Visvesvaraya Technological University, yet it is useful for B.Com, BBM, DBM, PGDBM and MBA students also. Contents: Management Planning Organizing and Staffing Directing and Controlling Entrepreneurship Small-Scale Industries Institutional Support Preparation of Project.
