known as tireless workhorses, designed to stand up to the rigorous, nonstop demands of harsh industrial environments. Built better than industry standards, NASH liquid ring two stage vacuum pumps have been known for their reliability. Solutions For Liquid Ring Two Stage Vacuum Pumps

## Two Stage Vacuum Pumps | NASH Liquid Ring Vacuum

NASH medium to large capacity single stage liquid ring vacuum pumps are ideal for demanding applications in extremely tough conditions. These heavy-duty pumps are able to service a wide range of applications, which can typically include dewatering in the paper industry and vacuum filtering in mineral ore processing.

Large Capacity Vacuum Pumps |  
NASH Liquid Ring

The NASH SC liquid ring vacuum pump and compressor is an upgrade to the original NASH CL pump and has been a reliable and flexible alternative for more than three decades. The SC pump/compressor offers a simpler installation, low maintenance operation, and reliable performance for many process applications.

With more than 100 years of experience producing liquid ring pumps, we know how to design pumps and compressors that are built to last. As a result, our Classic liquid ring vacuum pumps and compressors, like the 904, are still manufactured by Gardner Denver Nash and are running in plants around the world today.

Liquid Ring Vacuum Pump & Compressor Series | 904 | Nash Capacity 60 to 13,000 ACFM (100 to 25,500 m<sup>3</sup>/h) The NASH 2BE1 liquid ring vacuum pump and compressor series covers a broad range of suction volume, vacuum, and pressure. Based on the proven reliable flat sided liquid ring vacuum pump design the 2BE1 is available in 23 models, has a large differential pressure capability, and is ATEX Certified.
