background in the protection industry how to not only be their own bodyguard but how to learn new skills so that they may eventually protect other people professionally. If you want to learn the business and become a Private Security or Close Protection Operator, you must learn a series of skill sets. How you gain any skill set can vary from person to person. Some people acquire the skills in the military, police or even after years of hands-on martial arts training. You do not have to become a Green Beret, Navy SEAL or CIA Contractor to acquire a series of proficient skill sets on survival, combatives or shooting. All you have to do to acquire some new skills in personal protection is to have the desire to learn and then apply what you have learned safely and with a high level of proficiency. I will pass on small pearls of wisdom throughout this book. The gems that I pass on to you

Many times when people hear the word "bodyguard," a certain image forms in their mind. Unfortunately, this image is too often complicated by stereotypes of muscular men in sunglasses and fancy suits shooting handguns as they jump sideways over a car in slow motion. I have never seen this in my experience as a bodyguard. I have seen many years of professionals working day in and day out,

committed to protecting innocent people from people who want to harm them. I have witnessed professionalism that has humbled me and inspired me. I had been fortunate enough to work with professionals who I watched be the first to arrive, work all day in stressful environments, and be the last to leave. They are the professionals who work all of the time and are never seen or heard from on camera. They are silent and remain behind the scenes. Every day, more and more threats emerge in our world. Everything from terrorism to rising crime rates continues to make our world more and more dangerous. One thing is for sure, the need for protection and personal security is not going away. If you are interested in the industry of bodyguard work or executive protection, or even if you are already working in this field, this book is a great resource. It lists 101
