process, scientists say. If a person has a long-term illness, it's common for the person to withdrawal socially in...

What happens when you die? | Live Science

What happens when we die? No one really knows but some people believe that when their body dies, their spirit or soul carries on living somewhere else. The soul, some people say is a spark of life.

What happens when we die? - KS3 Religious Studies - BBC ...

People commonly perceive death as being a moment — you're either dead or you're alive. And that's a social definition we have. But the clinical definition we use is when the heart stops beating,...

What Happens When We Die? - TIME

What happens to your body after you die? Medically speaking, death happens in two stages. The first, clinical death, lasts for four to six minutes from the moment a person stops breathing and the...

What happens when you die? Life after death according to ...

At the Moment of Death We often think of the moment of death as that time at which the heartbeat and breathing stop. We are learning, however, that death isn't instant. Our brains are now thought to continue to "work" for 10 minutes or so after we die, meaning that our brains may, in some way, be aware of our death.

What Physically Happens to Your Body Right After Death

What happens to our minds when we die? Scientists may be closer to answering this question than ever. The study: A team of scientists led by Sam Parnia, of the State University of New York at ...

Scientists Have Discovered What Happens to Our Minds as We Die

All of your muscles relax after you die because they are no longer receiving instructions from your brain. As soon as your body expires, it releases urine and feces because the muscles holding those fluids back are no longer tense. You probably stink a little, and it's a mess to clean up. 2.

7 Things That Happen When You Die That'll Make You Glad ...

Medical experts have long debated what happens when a person dies, with anecdotal evidence of bright lights or sensations, and films such as Flatliners exploring the unknown. People who have been...

Six people who've 'come back from dead' reveal what happens

Dr Cameron is far from the first person to study what happens when you die. One set of research suggests our brains continue to work for 10 minutes after death, while this terminally ill violinist...

This is what happens in the 30 seconds before you die ...

At death, we all know, consciousness is gone, and so too the continuity in the connection of times and places. Where then, do we find ourselves? On stairs that, like Emerson said, can be intercalated anywhere, "like those that Hermes won with the dice of the moon, that Osiris might be born." We think that the past is past and
